

During the course of lessons it is often necessary to correct students positioning for certain exercises. In particular, stretching exercises can cause damage if not performed in the correct way and therefore it may be necessary for staff to assist students to enable them to find the correct placement. We also encourage the use of lifts in our work.

There is always more than one adult and various student teachers present during class and no other persons are permitted to touch the children.

We pride ourselves on being a caring company of people and if a child is upset or distressed it is within our nature to comfort that individual. Unfortunately in the present climate it is necessary for us to ask your permission to do so.

From time to time we like to take photographs of the classes for publicity and display purposes and all our shows are filmed. Once again it is necessary for us to obtain your permission to do so.

Please would you sign the permission slip below and return it to me as soon as possible.

Many Thanks

Penni Bubb

Igive my permission for my child.....

to be touched when necessary in the course of and/or be comforted by a teacher or assistant.

I also give my permission for images of my child to be used for publicity and display purposes by The Mushroom Theatre Company and/or The Equal People Theatre Company.

Signed.....parent/guardian
